# THE PROBLEM

## Smart Mobility Isn't Inclusive Yet

### Delhi High Court asks Centre to apprise it on mechanism that ensures disabled-friendly taxi apps

The court granted a last opportunity to the Union Ministry of Road Transport and Highways to file an affidavit on this aspect within four weeks.

New Delhi: The Delhi High Court has directed the central government to apprise it about the regulatory mechanism for ensuring that taxi aggregators' applications are disabled-friendly prior to their launch.

### Delhi HC gives Rapido four months to make app "disabled friendly"

The court was hearing a petition by corporate lawyer and disability rights activist Amar Jain, urging Rapido to make its mobile ride app "disabled-friendly".

Updated on: Mar 22, 2025 1:21 PM IST

By HT Correspondent

Rapido failed to address the accessibility needs of persons with disabilities (PwDs) due to operational flaws that make the app unusable for them, the plea said.

**New Delhi:** The Delhi High Court granted Rapido four months to make its mobile ride application "disabled friendly," terming its failure as an "alarming state of affairs".

The court was hearing a petition filed by corporate lawyer and disability rights activist Amar Jain, requesting that Rapido's mobile ride application be made "disabled-friendly".

# TARGET AUDIENCE & MOTIVATION TO SWITCH

**Specially-abled  
individuals**

**Elderly  
passengers**

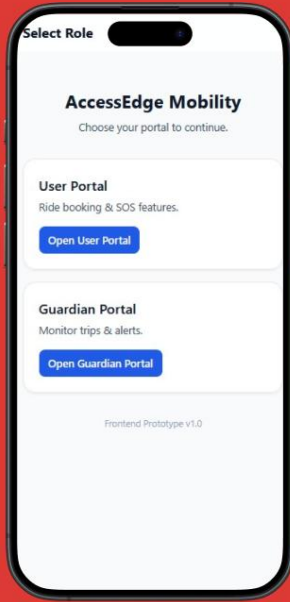

**Medically  
vulnerable users**

**Caregivers and  
guardians**

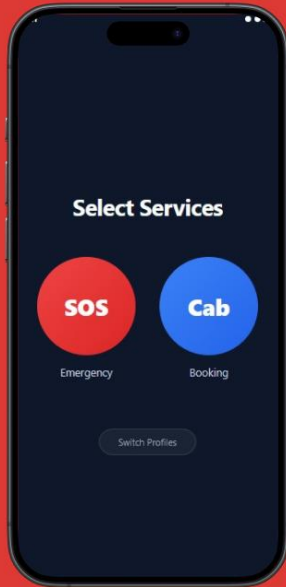

## Why Would They Switch to AccessEdge?

- **Intelligent vehicle matching based on real accessibility needs**
- **Voice-enabled booking for ease of use**
- **One-tap, multi-response SOS system**
- **Real-time guardian monitoring**
- **Dignified, independent travel experience**

# Our Solution – Dual Portal Intelligent System

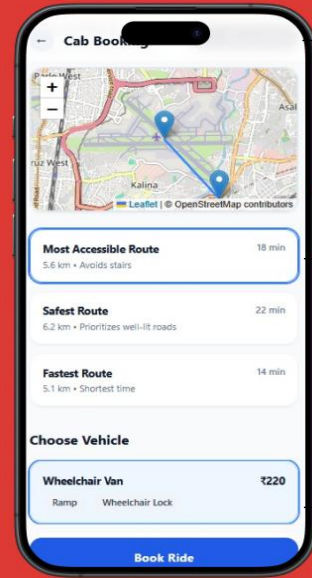

**User Portal**

**SOS Service**

One-tap SOS  
with 4  
response  
options

**Cab Service**

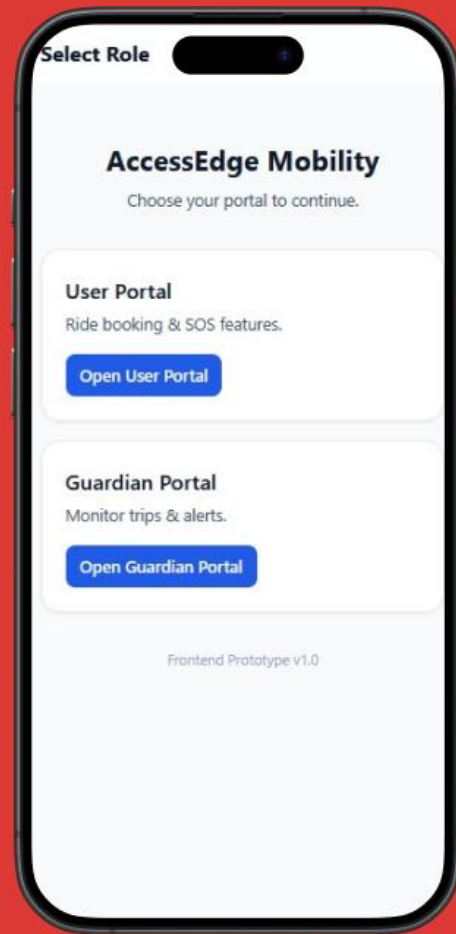

Voice-to-  
book  
feature

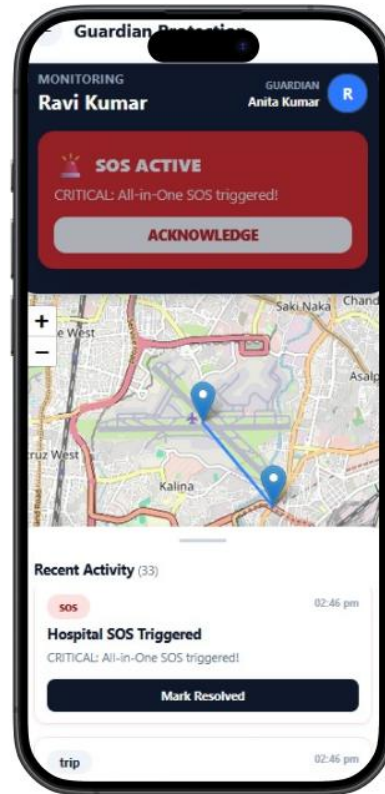

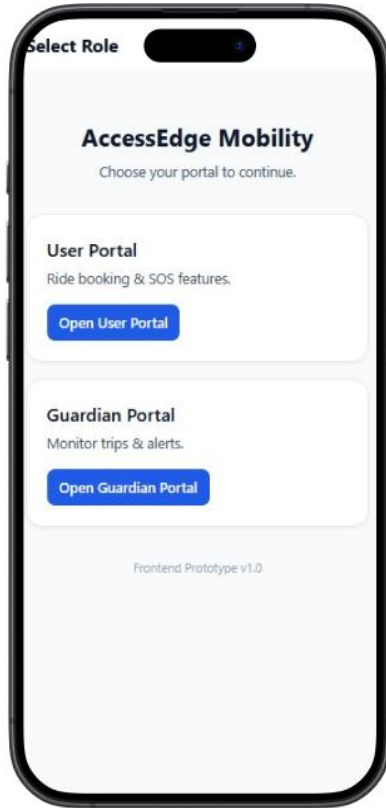

Best  
possible  
accessible  
route

User selects  
vehicle  
based on  
accessibility

# Smart mobility should work for everyone — not just most people.

<https://aptiv-coral.vercel.app/>

### **When SOS is triggered:**

- **Instant notification to guardian**
- **Live location tracking**
- **Real-time activity updates**

### **SOS resolution status visible Continuous ride monitoring Guardians can observe:**

- **Route changes**
- **Emergency activation**
- **Trip completion status**

## **Guardian Portal – Real-Time Monitoring & Safety**

# Competitive Landscape – Why **AccessEdge** Wins

- **Accessibility built into core system logic**
- **Dual-portal architecture (User + Guardian)**
- **Multi-layer SOS response system**
- **Voice-enabled booking**
- **Context-aware accessible routing**

# The Big Vision – Integration with Digital Cockpit

## For the User:

- **SOS can be triggered directly from the vehicle interface**
- **App integrated within the car system**
- **Seamless accessibility experience during travel**

### Strategic Impact:

- Uses existing vehicle telematics
- Enhances cockpit intelligence
- Expands inclusive mobility at scale

## For the Guardian:

- **SOS alerts visible through connected vehicle interface**
- **Live trip visibility from cockpit system**
- **Real-time safety synchronization**

# Acknowledgment to Our Mentors

## Aniruddha & Venkatesh Sir

**“We would like to sincerely express our gratitude to our mentors for their invaluable guidance throughout the development of *AccessEdge Mobility* .**

**Their insights, constructive feedback, and constant encouragement played a crucial role in shaping our ideas into a well-structured and meaningful solution. They challenged us to think critically, refine our approach, and align our work with real-world expectations.**

**More than guidance, they offered us confidence and clarity during moments of uncertainty. Their belief in our abilities motivated us to push beyond our limits and deliver our very best.**

**This project stands not only as a reflection of our efforts, but also of their mentorship and unwavering support. We are truly grateful for their time, trust, and encouragement.”**

**Our vision is simple —  
smart mobility should not  
just be intelligent, it  
should be inclusive for  
everyone**

**AccessEdge is a dual-portal smart mobility platform designed to make transportation accessible, safe, and dignified for specially-abled individuals, elderly passengers, medically vulnerable users, and their caregivers.**

**Our solution combines intelligent vehicle matching, voice-enabled booking, context-aware routing, and a multi-layer SOS system with real-time guardian monitoring — ensuring safety and independence at every step.**

**THANK YOU**

**WE APPRECIATE YOUR**

**TIME AND SUPPORT**
